

# Letter of Intent Clinic

Tuesday, October 15, 2019

How can you help your child's future guardian provide the best and most individualized care for your child after you are gone? Many parents write a "Letter of Intent" to guide future caregivers. This document outlines specific information about your child's medical care, emotional needs, daily routine, living arrangements, the resources available to the caregivers, and hopes and dreams for your child. By capturing this knowledge in a written document, you can help the caregiver avoid "trial and error" and care for your child as seamlessly as possible.

Learn how to create an insightful and comprehensive "guide to your child" at this hands-on Clinic from the perspective of an attorney and special needs parent. Receive encouragement from other parents in attendance.

We're here to help you make progress on this important step.
